BIRD WEIGHING SCALE PS/PLUS

BIRD SAMPLING AND
CLASSIFICATION,
INTEGRATED WITH
THE INTERNET

PRODUCT DESCRIPTION

The PS/PLUS is an intelligent scale developed for weighing, sampling, and classifying birds, providing greater accuracy, efficiency, and control of information throughout the production process.

MAIN BENEFITS

- Serves different segments of the poultry industry, from great-grandparents, grandparents, and breeders to rearing, production, and broiler chickens;
- Facilitates bird sampling and classification;
- Records and displays accurate weighing information, such as the number of birds, average weight, coefficient of variation (CV), and uniformity;
- Generates detailed weight-by-weight reports, allowing users to identify information such as weighing date, flock, poultry house, and pen;
- Stores weighing data on the Peso Exato Portal, enabling information to be monitored in an organized and secure manner;
- Allows reports to be sent via WhatsApp or registered email, facilitating information sharing;
- Allows results to be monitored in an integrated and online manner, contributing to faster and more efficient decision-making.
